

Home Learning

If your child has access to suitable IT (WiFi, laptops, tablets, smartphones) they should use Microsoft Sharepoint, this is because we have;

- recorded teacher explanations to support their learning
- Clear instructions as to what tasks need completing
- All the resources they need The link:

<https://leadacademytrust.sharepoint.com/sites/BirleySecondaryAcademy>

Students need to log on with their email address and usual password.

The email address format is as follows:

- Initialsurname@students.birleysecondaryacademy.co.uk (There may be a number after the surname) o
- E.g. jsmith@students.birleysecondaryacademy.co.uk (There may be a number after the surname - E.g. jsmith4@students.birleysecondaryacademy.co.uk)

During this time of isolation we are expecting all students who are not ill to be following their usual school timetable. For example, on a Tuesday they might have Maths, English, Science, Art and DT. We would expect them to work for half an hour to an hour on each of these subjects on that day. Their teachers will leave instructions on how they would want this work submitted. Usually it would be by email. If they are working on paper they should bring the work into school on their return.

Please note: They will not be able to type into the PowerPoints or Word documents unless they download it to their device. Where this isn't possible they should complete their work either on paper and photograph it to email to their subject teachers, or create a new Word document that they can attach to an email.

If your child does not have access to suitable IT, we will provide paper resources which can be collected from reception. **Please let us know if that is the case.**
